

Board Member Background Check Policy

All board members and potential board members are required to obtain and update BC&I and an FBI background checks in accordance with the School's sponsor contract.

Board member background check results are not public records. However, all board member background checks must be submitted to the School's sponsor in accordance with the sponsor contract. Additionally, for compliance purposes, a copy of each board member's background check results may also be retained at the school facility and/or in the School's document management system, which may be accessible by the School's educational management organization and employees. By submitting to the background check, board members and potential board members consent to the disclosure and use as outlined in this policy.

The cost of the background check will be reimbursed to the board member or potential board member in an amount not to exceed \$100 upon presentation of a receipt sufficiently documenting the expense.
